

Join AMD Summer Practice!

We create cutting-edge technologies that will shape the future of data centers, embedded systems, gaming, and PC markets.

Our programs are tailored for ambitious students ready to launch their careers in the high-tech industry.

Join our Summer Practice program on **28th of July – 14th of August** to explore exciting opportunities for starting, developing, and growing your skills through our thoughtfully designed projects tailored for students like you!

Together, we'll discover what we can create and achieve along this journey.

Requirements:

- ✓ Basic pseudocode
- ✓ Applications in various programming languages C, C++
- ✓ The basis of digital integrated circuits and the ability to use this knowledge (digital design)
- ✓ OOP

If you meet the requirements above, we encourage you to apply at office.ro@amd.com until **June 30th**. Interviews timeline: **June 30th – July 8th**

You have the opportunity to become one of us!
